

PERMANENTE CREEK TRAIL PROJECT, HIGHWAY 101 TO OLD MIDDLEFIELD WAY

General Construction Information

Construction of the project began in December 2010 and is expected to continue through spring 2012. The bridge will be constructed before the tunnel.

Pile driving will be necessary to construct the foundation of the bridge. Pile driving may cause considerable noise and vibrations. Specific information about pile driving including the hours and locations it will occur will be distributed to directly impacted residents and businesses.

During the bridge construction, the trail from Highway 101 to Charleston Road will be closed, and freeway and lane closures on Highway 101 will occur at night between the hours of 11:30 p.m. and 5 a.m. Work in the freeway median and construction of the bridge above the freeway may cause temporary traffic delays through the construction site.

During the tunnel construction, it will be necessary to close Telford Avenue from Old Middlefield Way to Spring Street. In addition, lane closures and traffic control along Old Middlefield Way between Highway 101 and Sierra Vista will be necessary.

Construction vehicles and equipment will enter and exit the work zone during construction and this movement will have some impact on traffic on Charleston Road and Old Middlefield Way.

Residents and businesses directly impacted by construction will be notified of specific events and construction impacts during construction.

The overall construction schedule is as follows:

Begin Project Construction	December 2010
Pile Driving	December 2010 to February 2011
Bridge Construction	December 2010 to December 2011
Tunnel Construction	Summer 2011 to Spring 2012
Telford Avenue Closure	Summer 2011
Complete Project Construction	Spring 2012
